Dr. Prafull Vijayakar

from Mumbai, India is one of the most celebrated and successful homeopaths of our times. He has in particular received great attention for prescribing accurately, that too for the so called 'incurable' pathologies. He is the pioneer of Predictive Homeopathy, a brilliant mind, who demands to be judged by his success not his theory! He often affirms 'judge me by the success of my followers – and if they are successful, my theory must be true!' Indeed, his results speak of his true story and prove him right. Dr. Vijayakar has been practicing for 33 years and as of today, he is one of the most popular teachers worldwide – in India, up to 3,000 participants attend his seminars at a time. With his Predictive Homeopathy he has shown that the limits of curability lie in the homeopath and not homeopathy.

With the help of innumerable video cases, Dr Vijayakar explains his understanding of miasms and the follow-up techniques in a rather 'predictive' way. Predictive here means to be able to precisely predict how the patient will respond to the similimum: where will the healing process start, which symptoms should go first and which ones will occur at a later stage. His 'chart of suppression' acts as an invaluable compass to monitor our choice of the remedy, either it is leading us towards an ideal homeopathic cure or if is a suppression.

The seminar

will illustrate Dr. Vijayakar's congeniality. He shows the case-studies of severest pathologies and challenges the limits of our imagination. 'Homeopathy has no limits. The limit of homeopathy is the homeopath himself' comments Dr. Vijayakar. He will reflect on his case analysis, thought process, and how he chooses the rubrics and determines the right prescription. This whole journey will help us understand his useful methods of arriving at a similimum with ease, and also his extraordinary discoveries in Materia Medica, charts in day to day practise. The seminar is aimed to encourage participants to handle severe pathologies with great confidence and clarity of mind.

The seminar will be held in English, a simultaneous translation into German via headphones is optional.

Why four days? We want you...

to intensively experience Predictive Homeopathy – to have the time to meet colleagues, friends and peers – to network with old and new acquaintances – to have room for questions, answers and discussions in the evening – to see Regensburg, a wonderful city with remnants of European history, world heritage status and a charming atmosphere – to have a good time!

The organizers are set on creating an insightful seminar that is worth your while. We are certain that you will enjoy this trip – inside and outside the classroom.

We are looking forward to welcoming you in Regensburg!
